I. Core Values

- a. McCall Golf Club strives to provide the best playing conditions on the golf course for the membership's enjoyment. This is a shared responsibility with the staff of MGC, the membership and guests. Each player is responsible for protecting and preserving the condition of the golf course. Additionally, all golfers assume responsibility of any damages to property or turf as a result of playing the game of golf. This includes, but is not limited to errant balls striking buildings, vehicles or neighboring properties. MGC will not assume any responsibility for damages caused by a player.
- b. McCall Golf Club prides itself in promoting the game of golf while encouraging appropriate etiquette ensuring an enjoyable visit to the club for all members and guest. Detailed etiquette expectations are contained in this description of club policies and rules and it is expected that all members will adhere to the core principles and values of the club.

iii. Maintaining the course:

- 1.** Members and guests are expected to properly care for the course and its conditions while playing the game. Our ground crew prepares the course for play and MGC relies on the commitment of the membership to assist with the maintenance during their round. This includes, but is not limited to: replacing divots, raking bunkers, repair ball marks and repairing teeing grounds.
 - a.** Replacing divots on teeing grounds – All holes will have a container with a soil mix to repair divots on the teeing ground. When creating a divot on the teeing ground, simply access the soil mix, fill in the divot and smooth over with your shoe.
 - b.** Replacing divots on fairways – When possible, it is preferred to have “clean divots” replaced in their entirety and tamp down with your shoe. When the divot is not able to be fully filled with the turf, use the soil mix containers provided to fill in the divot and smooth over with your shoe.
 - c.** Raking bunkers – Always access the bunkers at the lowest point possible. After playing your shot, use the rake supplied in each bunker area to smooth over your foot tracks and where you hit your shot. Always place the rake outside of the bunker after you repair the affected areas.
 - d.** Ball marks on greens – It is expected that all members and guests will repair all ball marks on the putting greens before the player leaves the green. Follow the “Fix Three Rule:” Fix your mark and repair two others.
 - e.** Litter on the course – Waste receptacles are positioned throughout the golf course and should be used by all players to dispose of waste. If you encounter any trash on the course not in a receptacle, kindly store it until you see the next receptacle.

iv. Courtesies of Golf:

- 1.** Players should not move, talk or stand close to or directly behind the ball or the hole when a player is addressing the ball to make a stroke.
- 2.** In the interest of all, players should play on their turn, without delay, and not loiter between shots. All players should immediately leave the putting green after play of a hole is completed.
- 3.** Players who are not maintaining the appropriate pace of play are expected to invite the group behind them to play through and shall not resume play until that group is well out of range for their next shot. A measurement of whether the pace of play is being maintained is the development of an open space of one hole or more.
- 4.** Searching for golf balls - Under the Rules of Golf, you have three minutes to search for a golf ball. If you don't find it within three minutes after beginning your search, the ball is deemed lost.
- 5.** It is expected that members and guests will not use loud, profane or vulgar language. Additionally, the act of throwing clubs is strictly forbidden. Any violations in your group should be reported to the professional staff at MGC.
